ABOUT DNSFILTER

Since 2015, DNSFilter has been passionate about making the internet a safer place for users around the world, providing best-in-class customer service, and continuously challenging the way the industry thinks about security via DNS.

WORLD'S FASTEST DNS RESOLVER

We know that speed is important and DNSFilter is proud to be the fastest resolver worldwide. Our queries take just 6.67 ms—faster than Google, Cisco, and Cloudflare.
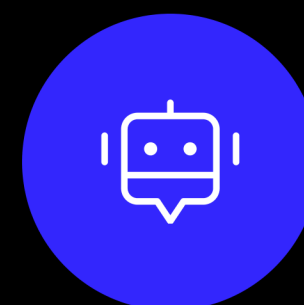

ML-POWERED CATEGORIZATION

We categorize billions of domains daily, catching 76% more threats than our competitors. With machine learning, we're able to detect and block threats 7 days faster than third-party threat feeds.
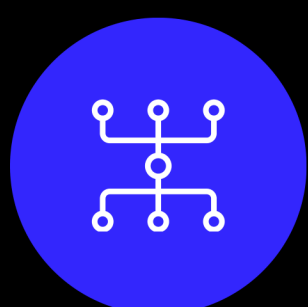

GLOBAL ANYCAST NETWORK

DNSFilter maintains 171 anycast servers and 82 datacenters across 40 countries. We operate 2 separate anycast networks, which allows us to guarantee 100% uptime.

FAST DEPLOYMENT

Protect every device on your network quickly and easily. Most organizations have DNSFilter fully deployed across their networks in less than one week—many even fully deploy in less than 1 day.

ROAMING CLIENTS FOR ENDPOINT PROTECTION

ADVANCED REPORTING OPTIONS

FAST AND ACCURATE THREAT IDENTIFICATION

CATEGORIZATION AND CONTENT FILTERING

DNS NETWORK VISIBILITY & INTELLIGENCE

INTEGRATIONS WITH ACTIVE DIRECTORY, ZAPIER, SIEM TOOLS
